

## Optum ICD-10 SWAT Assessment:

Get on the fast track to ICD-10 readiness with the Optum360<sup>™</sup> accelerated readiness plan

### It's time to get serious.

The ICD-10 compliance date delay should be used to your advantage if you haven't yet put a solid transition plan in place. That's why Optum360 is offering a fast-track program to jump-start your preparation and lay the groundwork for a successful transition. Our ICD-10 Severity Weighted Assessment Tool (SWAT) Analysis will help you identify where your organization should focus efforts and build action plans to mitigate the far-reaching impacts to your operations and revenue. The time to begin is now.

In just five weeks, Optum360 will:

#### Identify

Identify the impact of ICD-10 on your people, processes and systems

#### Understand

Understand your organization's overlapping initiatives that may impact the transition

#### Plan

Provide a remediation plan to fast-track your organization to ICD-10 readiness

Using our structured, streamlined approach, we analyze your data, processes and organizational needs to develop a 30-day, 60-day and 90-day action plan for each work group, prioritized by time frame. For each action item, we'll identify:

- Finding/decision
- Priority
- Risk of not taking action
- Recommended mitigation considerations
- Next steps
- Accountable work group
- Status

## Process overview

We work in three phases over the course of the SWAT Assessment to gather necessary data, focus on team communication and strategy, and assemble a targeted, actionable plan.
